

MANAGER - WATER SERVICES

Denison Municipal Utilities (DMU) of Denison, Iowa, (population 8,300) is accepting applications, due to retirement, for the position of Manager – Water Services. DMU is located in a beautiful rural community with strong family values and an excellent education system. The DMU water system serves 3,800 customers and provides water to a rural water association. This position is responsible to the General Manager. Applicants must have proven management, leadership, and communication skills, strong problem-solving skills, and the ability to prepare sound recommendations based on factual data and good judgment. The successful candidate must also have a commitment to providing excellent customer service and a broad knowledge of water utility financing, personnel supervision, and operations. Must meet the DMU response time requirement for emergency service calls. Prefer Bachelor's Degree or considerable experience in wells, water treatment, and water distribution system with two years in supervisory or management capacity, and familiarity with EPA and Iowa DNR water regulations. A Grade 3 certification with the Iowa DNR in both water treatment and distribution is required. Starting salary is commensurate with experience and qualifications. Submit DMU application, resume and salary history to: Rory Weis, General Manager, PO Box 518, Denison, IA 51442. Deadline is May 4, 2022.
